

Vertec Communications

Job Title: Senior Aerial Technician

Reports To: Project Manager

Location: 202-6741 Cariboo Road, Burnaby, BC V3N 4A3

Email: jobs@verteccommunications.com

Phone: 604.444.5500

Requirements

- Minimum of at least 5 years experience installing cell sites and working comfortably at heights.
- Must have a valid certificate in climbing and fall protection, as well as in first aid.
- Conversant with laptop computer and wireless personal use devices.
- Able to provide management with details of junior employee abilities and habits as requested.
- Track record that shows steady improvement in all aspects of aerial tech work and the desire and ability to coordinate all aspects of a field project.
- Installation and verification skills to be able to give instructions and field training to more junior staff for the proper completion of projects.
- A valid, full-privilege provincial driver license in good standing.
- Must be bondable and able to work in the USA.

Job Duties

- Provide telecom installation services as assigned to support the company's customer base, e.g.:
 - Perform grounding installation.
 - Erection of structures.
 - Installation and verification of antenna and transmission lines.
 - Conduct visual inspections of antenna structures, aerials, co-axial cables, fixings, feeder cables and anchor points.
 - Carry out cable repairs including splicing and termination.
- Accept more technical projects and able to show growth in a team environment.
- Provide support to Project Managers by taking on project logistics coordination, inventory control, and/or technical support.
- Develop installation procedures.
- Carry out risk assessments and ensure inspection and use of personal safety equipment prior to commencing each project.
- Generate reports on both customer and company servers.

Expectations

- Able to work and travel alone, take charge in a group environment with junior staff, and research technical issues to support new products or technology.
- Able to work independently with their own team to complete all aspects of a project but still under the direction of a Project Manager.
- Able to monitor junior field staff and report on issues and concerns.
- Work directly with external customers on all issues except financial.
- Ensure that safe procedures and safe equipment are in use at all times.

Physical and Environmental Demands

- Physically demanding position that requires the ability to lift, carry, grip and handle unpredictable loads.
- Carry out tasks at heights under diverse weather conditions including heavy rain and/or snowfall.
