

Vertec Communications

Job Title: Telecommunications Technician

Reports To: Senior Technician

Location: 202-6741 Cariboo Road, Burnaby, BC V3N 4A3

Email: jobs@verteccommunications.com

Phone: 604.444.5500

Requirements

- Diploma from recognized technical school in Telecommunications, Wireless Communications or equivalent.
- Familiarity with commonly used office software (Word, Excel etc).
 - Strong computer skills would be considered an asset. ie. LANs, IP etc.
- Class 5 driver's license in good standing.
- Minimal work experience is required.

Core Competencies

- Organizational skills, strong attention to detail; meticulous.
- Good communications skills, both written and verbal.
- Knowledge of assorted hand and power tools.
- Ability to work alone with minimal supervision.

Job Duties

- Assist Senior Technicians with the installation and testing of various types of equipment in the telecommunications industry including, but not limited to: DC power systems, M/W radio, DACS, Mux, and Cellular.
- Installation of telecom equipment in accordance with customer supplied work-orders and applicable standards.
- Commissioning of equipment using test gear such as: spectrum analyzer, power meter, frequency counter, DVM, sweep gear etc.

Expectations

- Extensive travel is required, primarily in BC and the Yukon, but potentially throughout Canada and the USA. Vertec is based out of Burnaby; as such the candidate would be expected to use the lower mainland as a home base.
- Shift work and weekend work on occasion is required; applicants should be flexible in their availability.

Physical and Environmental Demands

- Physically demanding position that requires the ability to lift, carry, grip and handle unpredictable loads.
- Carry out tasks at heights under diverse weather conditions including heavy rain and/or snowfall.
